

The Best Place for Check-ups

Come to PriMed for your annual physical. Your health is important, so get your care from the healthcare team you know and trust.

During your check-up, we will:

- ✓ Review your medical history and medications
- ✓ Recommend vaccinations and preventive screenings
- ✓ Review test results
- ✓ Refer to specialists, if needed

The best part of your check-up is learning how to take better care of your health! **Physicals at a grocery, pharmacy or urgent care aren't as comprehensive and don't update your medical record.** We'll be glad to complete forms needed for school/sports physicals.

If the doctor identifies an urgent concern, it will be addressed immediately. Non-urgent issues can be addressed at appointments outside of the check-up.

Schedule your check-up today.

At PriMed, we're committed to "Treating You Well.®" As your main source of medical care, we offer coordinated care, when you're sick and when you're well!

Treating **You** Well.®
