January 27, 2021

Dear Patients and Patient Families:

After 28 years of pediatric practice, I have decided that it is time to retire. My last day of active practice will be April 30, 2021. It has been an honor to care for your families over the years, and I will deeply miss my daily interaction with so many of you.

Since we have moved to our new, larger office in Centerville, several of the pediatricians are currently accepting patients, including Dr. Lisa Klanke, Dr. Stephanie Morrison and Dr. Victoria Taylor. If you or your child would prefer a male pediatrician, Dr. Randy Eisenhut is also available. Also, a new pediatrician will be joining the practice later in the year.

For patients who are reaching adulthood, now may be a good time to transition from pediatrics. PriMED offers several family-practice offices in Greater Dayton, including our Family Practice physicians in Centerville. Please visit primedphysicians.com for profiles of all our physicians. I will be glad to discuss this with you, as well.

To transfer to a **non**-PriMED doctor, please complete a Medical Records Request form and return to our office. (The form is available on our website and from the office.) It's suggested you contact your health plan to confirm the provider is in your plan's network if you're not staying with a PriMED doctor. As your family works through this transition, please contact us at 937-291-6850 if you have questions.

My own children are now graduating from college, and life is turning in a new direction for our family. I am fortunate to have truly loved what I have done since my own college graduation, and I am looking forward to this next phase.

I am honored to have been a small part of your family and wish you the best in the coming years.

Sincerely,

A handwritten signature in black ink, appearing to read "Judene Thome". The signature is fluid and cursive, with a large initial "J" and "T".
