Dear Patients and Parents:

For the past three years, I have had the pleasure of being part of Englewood Pediatrics. After much consideration, I have decided to join Dayton Children's. Since I'll be caring for patients from a Dayton Children's Urgent Care office, I'm unable to see patients for their ongoing primary care. My last day to see patients in Englewood is September 15.

Fortunately, the other pediatricians at Englewood are available:

- Dr. Harper continues to grow his practice at both the Englewood and Wright Dunbar locations. (PriMED's Wright Dunbar office is on W. 3rd Street, about 10 miles from the Englewood office.) He is at both locations two days a week.
- We are seeking a new pediatrician to join the practice. Until then, our pediatricians from some of the other PriMED offices will provide care in Englewood.
- Drs. McDowell and Sidwell will also be available for ill/acute visits.

For patients who are reaching adulthood, now may be a good time to transition from pediatrics. Our office can assist you in finding a doctor at one of the PriMED Family Practice locations.

As we work through this transition, please contact us at 937-836-9921 if you have questions.

It will be helpful for you to know:

- Medical records will remain in the Englewood office and will be accessible to the care team.
- If you decide to transfer to a **non**-PriMED doctor, please complete a Medical Records Request form and return it to our office. (The form is available on our website and from the office.) We suggest that you contact your health plan to confirm that any clinic you transfer to is in your plan's network if you are not staying with a PriMED doctor.
- Any appointment scheduled with me after September 15 will be cancelled and rescheduled by the office.

I want to thank you for allowing me to be your pediatrician. I apologize for any disruption that my move may cause. I wish you and your families the best going forward.

Sincerely,

A handwritten signature in black ink that reads 'Caleb Dukeman MD'.

Caleb Dukeman, MD
