March 23, 2021

Dear Patient:

After 39 years, I will be retiring from practicing medicine at the end of April. I will also no longer be serving PriMED Physicians as their Chief Medical Officer, Chair of the Clinical Excellence Committee, PriMED Board member, etc. Younger and talented physicians who understand and believe in the mission, vision and values of PriMED Physicians will assume these responsibilities and excel for years to come.

I consider it a privilege and honor to have been your physician for so many years and truly appreciate your entrusting me with your medical care. I will continue to work three days a week with MediSync to further develop artificial intelligence for multiple chronic diseases. This technology and knowledge will help many medical groups, including all PriMED Physicians, so I may be touching your life but in a very different way. I plan to spend the additional free time with my family (especially my seven grandchildren) and the great outdoors. My last day of active practice will be April 30, 2021.

Although I will no longer be your primary care physician, please consider transferring to one of the other Family Practice doctors at the Centerville office. Multiple family members and friends are being cared for by these physicians:

- Deanna Allgeyer, MD
- Zach Liapis, DO
- Laine Sommers, DO

You are probably already familiar with these doctors. Additional information is also available at primedphysicians.com. Please contact our office to indicate your preference for transfer.

To transfer to a **non**-PriMED doctor, please complete a Medical Records Request form and return to our office. (The form is available on our website and from the office.) It's suggested you contact your health plan to confirm the provider is in your plan's network if you're not staying with a PriMED doctor.

As you work through this transition, please contact us at 937-291-6830 if you have questions.

May God bless and watch over you,

A handwritten signature in black ink that reads "Doug".

Douglas E. Romer, MD
